Title: Does doing internships help in earning aicte points?

Body: Hey am from SE and currently am doing 2 internships and 1 full time role, and I honestly feel that these clubs and all are bullshit, i was in a core committee but I retired in just a month to focus more on my career rather than surviving bottles nd clicking pictures in an event. So if I submit these internship certificates, will it help in aicte points? Or will I have to continue with clubs nd committees?
